

(1) финализирован интернет магазин со своим дизайном

(2) настроена сборка следующим образом: установлено:

- webpack
- webpack-cli

Для упаковки компонентов vue:

- vue-loader,
- vue-loader-plugin,
- vue-template-compiler

Дополнительно: html-webpack-plugin

В папке dist успешно создается сборка:

```
PS C:\python_course\javascript2_course\dz8_Dmitry_Rybko\internet_shop> npm run build
> internet_shop@1.0.0 build C:\python_course\javascript2_course\dz8_Dmitry_Rybko\internet_shop
> webpack

asset ./build.js 10.2 KiB [emitted] (name: main)
asset index.html 5.13 KiB [compared for emit]
./public/js/main.js 1.52 KiB [built] [code generated]
./public/js/CartComp.js 3.03 KiB [built] [code generated]
./public/js/ErrorComp.js 449 bytes [built] [code generated]
./public/js/FilterComp.js 377 bytes [built] [code generated]
./public/js/ProducComp.js 1.99 KiB [built] [code generated]
webpack 5.28.0 compiled successfully in 818 ms
```

(3) Чтобы webpack автоматически делал сборку при изменениях в файлах:

- в package.json добавлено: "watch": "webpack -w"

```
"scripts": {
  "test": "echo \"Error: no test specified\" && exit 1",
  "build": "webpack",
  "watch": "webpack -w"
```

- запускаем сборку следующим образом: npm run watch, что запускает webpack с флагом -w.

```
PS C:\python_course\javascript2_course\dz8_Dmitry_Rybko\internet_shop> npm run watch
> internet_shop@1.0.0 watch C:\python_course\javascript2_course\dz8_Dmitry_Rybko\internet_shop
> webpack -w

asset ./build.js 10.2 KiB [emitted] [compared for emit] (name: main)
asset index.html 5.13 KiB [compared for emit]
./public/js/main.js 1.52 KiB [built] [code generated]
./public/js/CartComp.js 3.03 KiB [built] [code generated]
./public/js/ErrorComp.js 449 bytes [built] [code generated]
./public/js/FilterComp.js 377 bytes [built] [code generated]
./public/js/ProducComp.js 1.99 KiB [built] [code generated]
webpack 5.28.0 compiled successfully in 782 ms
```
